**General Decorating Contractors** are hired by **Show Management**. They are generally responsible for the physical planning of the event, the shipment and delivery of exhibition freight, the rental of furniture, carpets and other booth/exhibit equipment and the building and dismantling of most of the exhibits.

**General Decorating Contractors** supply their own on-site management and supervisors and hire freight moving and exhibit building labor.

### **Expo Convention Contractors, Inc. (EXPO) is the Official General Decorating Contractor of FSC**

and will maintain a full staff on-site at the **Exhibitor Service Center** during set-up, show days and dismantling. All other **Official Show Contractors** will also be set up in this area as well. All inquiries regarding booth services and orders should be made at the **Exhibitor Service Center**, including booth furnishings, labor, freight, utilities, and special show services. Exhibitors who have ordered labor are asked to check-in at this desk when they are ready to install their exhibits. The person in charge of your exhibit should carefully inspect and sign for all work order forms. If you disagree with a bill presented for your signature, question it immediately. If you cannot come to a satisfactory agreement with the contractor, contact **Show Management**. Do not put it off. Once the show has ended, it becomes very difficult to resolve issues.

Since these contractors frequently work on more than one show with us, they value the business of our customers and provide quality products and services.

Some companies may misrepresent themselves as being an **Official Contractor** so please be sure to check the list below or give us a call. Some things to watch for if you are considering the services of a non-official contractor are hidden charges for material handling, labor and shipping that you might not pay otherwise (for example on carpet rental), control over delivery time, availability during move-in and leverage if something goes wrong. Also be advised that non-official contractors will need to abide by the **Exhibitor Appointed Contractor (EAC's)** procedures, provide insurance certificates, etc. in order to gain access to the Show Floor.

### **FREIGHT HANDLING**

The Local Union claims jurisdiction over the operation of all material handling equipment, all unloading and reloading. An exhibitor may move material that is hand-carryable by one person in one trip, without the use of dollies, hand truck or other mechanical equipment. When exhibitors choose to hand-carry in accordance with the foregoing, they are not permitted access to the loading dock area(s).

**EXPO** is responsible for receiving and handling all exhibit materials and empty crates. It is our responsibility to manage loading docks and schedule vehicles for the smooth and efficient move-in and move-out of the exposition.

### **EXHIBIT INSTALLATION AND DISMANTLING**

The Local Union claims jurisdiction over the installation and dismantle of tradeshow and exhibits. Full time employees of the exhibiting companies, however, may set their own exhibits without assistance from this local. Any labor services that may be required beyond what your regular full-time employees can provide, must be rendered by the Union. Labor can be ordered in advance by returning the Labor form, or at show site, at the service desk. Proof of full-time employment status may be requested by the Union Steward of any personnel working on your booth.

### **COPYRIGHTED MUSIC**

If any copyrighted music is to be played in your booth, you must obtain all necessary licenses from the copyright owner or licensing agency representing the copyright owner. The licensing requirements include the playing of live, as well as recorded music, (records, tapes, compact discs, etc.) and also include music, whether it is the essence of the presentation or is only used as background, on a videotape or other presentation.

The proper license must be posted in your booth and available for inspection at the request of **Show Management** or properly authorized agents of **ASCAP** or **BMI**. We advise you to contact these agencies as listed below to acquire the proper licenses:

- **ASCAP Licensing Dept. / 1 Lincoln Plaza / New York, NY 10023 / Tel: 212-621-6000**

The Center is accessible from major interstate highways including I-195 and I-395. Miami Beach offers public transportation and private solutions to facilitate your guests' and attendees' arrivals and departures from the **MBCC** to hotels, restaurants, area attractions and more.

Used by residents and tourists alike, the Local offers multiple stops, detailed routes and a consistent schedule throughout South Beach's 23-block radius. The South Beach Local trolley facilitates pick up and drop off for attendees to nearby hotels, restaurants and attractions. Visit the [South Beach Local website to learn more](#).

#### **2. Taxis**

Taxi meters start at \$2.50 but can vary; tipping is expected. Taxis may not be the most cost-effective option but should be considered as support to attendees and guests who will need to travel off of Miami Beach. Visit the [Taxi finder website to learn more](#).

#### **3. Ride-share apps**

Uber Pool and Lyft Line allow ride sharing with other passengers, significantly cutting cost in exchange for a slightly longer drive. Most attendees already have these apps on their phones, but Uber and Lyft apps can be downloaded for free from the Apple App store or (for Android devices) the Google Play Apps store. Include ride-share apps as options on your transportation plan to offer attendees and guests the most flexibility for exploring the destination.

#### **4. Miami Airport Service**

presents as suspicious. Anyone not consenting to a search at the request of a security officer will be asked to leave without refund.

**Florida Supercon** and city officials fully understand that none of our fans or attendees are of any threat to anyone. We also appreciate that we have never had an incident in the past when we allowed fake weapons into the building. Unfortunately, at this moment in time, we have to eliminate all possible confusion about props and fake weapons.

What do we mean by weapons? We are not referring to "cartoon" weapons (we consider those "props")... we are talking about REAL and REALISTIC looking weapons. Lightsabers and Phasers are ok. Airsoft and BB guns are not.

Anyone entering the building with a mask on may be asked to remove it upon entry. You may put it back on once you pass the prop check point.

Both **Florida Supercon** and the City of Miami Beach want every attendee to have a good experience in the city and at our show. Your safety and security is our top concern.

### SECURITY

**A6 Services** is the **Official Security Contractor** of **Florida Supercon**. **Show Management** will provide perimeter security personnel on the exhibit floor on a 24-hour basis during the entire period of the show (including installation and dismantle). Every reasonable effort will be made to prevent losses; however, the final responsibility lies with the exhibitor. If you have items in your booth that are vulnerable to theft, take them with you when you leave the building for the day. For larger items that cannot be moved, we recommend that you hire additional security for your booth.

Please refer to the [Vendor Forms & Guidelines](#) section of the online manual for order information.

### BASIC SECURITY RECOMMENDATIONS

- By now you should have arranged for insurance coverage to protect your exhibit and product against damage or loss from the time it leaves your premises until it returns
- Exhibitor personnel must wear official Show Exhibitor badges at all times during move-in, Show Days and move-out. Please do not give Exhibitor Badges to anyone other than your full-time employees and remove all badges from the building when you leave on your last day there. Badges left behind are often abused by unauthorized personnel so do not leave them in your booth or discard on the floor
- Unpack product as close to the Show opening as possible. At the close of the Show, we suggest that you stay at your booth until these valuables are repacked
- At the close of business each day, cover all display tables. This establishes a barrier to curiosity seekers and other would-be thieves from selecting such items to steal at a later time
- Place your wastebasket along the aisle at the end of each day to facilitate trash removal

- Treat especially valuable goods such as prototypes as irreplaceable. If they truly are one-of-a-kind, hire your own security guard. ***Under no circumstances*** should such goods ever be left unattended. Electronic devices are particularly vulnerable to theft
- Remove tapes or discs at night and store them in a safe place. Keep close tabs on personal items (cell phones, purses, laptops, briefcases, etc.)
- Do not put articles of any value in a container marked "**EMPTY STORAGE**", or behind booth
- Shipping cartons should not identify contents. Use coded labels
- Give special considerations to prototypes, irreplaceable and highly valuable articles, or other sensitive items
- Be sure to send copies of Shipping Information, including all tracking numbers with your set-up people so that they know how many pieces should arrive
- Booth staffing plans should take the following into consideration:
  - Who will be at the booth during set-up and dismantling?
  - Will an inventory list be available to check complete delivery during set-up and complete shipment after dismantling?
  - Will you need a security cage?
  - Will you need a private guard?
  - Should you safeguard material in the free storage room during non-Show hours?
  - Does everyone concerned know that nothing of value should be left in containers labeled "**EMPTY**"?
  - Will someone be on duty at least a half-hour before the Show opens? And until Show is closed for the day? Will you schedule rotation to cover lunch breaks, etc.?
  - All of your booth personnel should be advised to wear official Show Badges at all times as a security measure, and to use the official Merchandise Passes when removing items from the exhibit floor
  - DO NOT leave laptop, purses, cell phones, cameras, etc. unattended
- It is essential that exhibitor personnel remain in their exhibit areas until their display materials are secured. All small articles which can be easily picked up should be securely packed before you leave your booth after the Show closes
- During teardown, stay with your exhibit until your empty cartons are delivered and your goods are packed, sealed and properly labeled
- Do not leave material in your booth unlabeled at any time during move-out because many things could happen it may be presumed abandoned; mistaken for trash; or one of your neighboring booths might label it in error!
- At the close of the show, please be sure to secure all electronic equipment

### ***Don't Leave Your Booth Unattended Until Your Merchandise Is Secure***

The best security available is still inadequate and losses will occur, if exhibitors leave merchandise, especially valuable merchandise, unsecured in their booth overnight. Secure all such merchandise at all times during the non-Show hours.

Our objective is to make your show experience as worthwhile and profitable as it can be. Adhering to these
